

SkinMedica® Retinol Complex .25

This vitamin A microparticle delivery system enhances skin texture through exfoliation and skin rejuvenation.

- Vitamin A improves the appearance of fine lines, aging and sun-damaged skin
- Enhances skin texture to renew and revitalize
- Sustained release formulation delivers vitamin A slowly to minimize irritation allowing nightly use

Recommended Uses:

Prior to use, invert and tap the top of container several times in palm of hand.

Apply a single pump to face and neck every evening. As with any skin care product, avoid getting in eyes. If contact occurs, rinse eyes thoroughly with water.

CAUTION: Patient should not use if pregnant, lactating, or planning to become pregnant.

Use a sunscreen and limit sun exposure while using this product and for a week following.
