

SkinMedica® Scar Recovery Gel with Centelline™

- Helps support key aspects of scar formation to reveal smooth, clear skin
- Clinically tested to provide earlier and greater overall improvements in the appearance of scars
- Specialty key ingredients that are naturally-derived
- Soothing lightweight gel
- Easy application, just twice daily

Recommended Uses:

Apply a thin layer twice a day. Wash your hands before and after use. Begin using Scar Recovery Gel immediately following surgery or after a wound has been generated. The use of Scar Recovery Gel should continue until the scar matures and appears flat and white without redness. Avoid contact with eyes. If contact occurs, rinse eyes thoroughly with water.
